

BLISTS

HILL

Great trips with this programme

Let's

Go!

NOTES ON THIS EXCURSION

Blist Hill is.....

another great trip, also quite relaxing. Make sure you are around to offer the students a helping hand, once you have explained the task to them. Remember to set a meeting point and a meeting time and rotate amongst yourselves so that there is at least one person there at all times but that way you can also explore the town a bit. Make sure you also keep an eye on the groups so that they are respectful and mindful of their environment.

- 1. Blists Hill Victorian Town is an open-air museum built on a former industrial complex.**
- 2. The museum attempts to recreate the sights, sounds and smells of a Victorian Shropshire town in the late 19th and early 20th centuries.**
- 3. Originally Blists Hill was an industrial region consisting of brick and tile works, blast furnaces and coal, iron and fire clay mines.**
- 4. The museum has been used as a venue for various television programmes and films, including Doctor Who and Blue Peter.**
- 5. The first building visitors see in the museum is the bank, at which you can change modern coinage into token coinage that represents the pre-decimal farthings, halfpennies, pennies, threepenny bits and sixpences. The token coins can be used as an alternative to modern currency for buying goods whilst visiting the museum.**
- 6. Blists Hill is just one of ten museums that form the UNESCO Heritage site of Ironbridge Gorge, and they are recognised globally for Ironbridge's essential contribution to the industrial revolution.**
